

Department Overview

- **Department Name:** Department of Architecture
- **Faculty:** Faculty of Engineering & Architecture
- **Accreditation:** The program is officially accredited by the **Pakistan Council for Architects and Town Planners (PCATP)**.
- **History & Scale:** Established in 2009. The department has expanded to train a student body of more than 150 undergraduate students.
- **Core Professional Focus:** Melds science and arts to design built and unbuilt structures aimed at expanding the global "art of living." The curriculum works to resolve contemporary and upcoming worldwide structural and spatial design adjustments, preserving a distinct lens on the cultural context of Balochistan.

Vision and Mission

- **Vision:** To be among the best architecture schools, where students and teachers find their identity as professional architects of all times and situations, where they explore, discover and build culture artistically with creativity and difference.
- **Mission:** Committed to training students through in-depth study and research in social, cultural, political, and historic context; and to provide a comprehensive architectural design solution for the region in general and for Balochistan in particular with emphasis on its spatial needs.

Bachelor of Architecture (B.Arch) Program

Admission Requirements

- **Academic Background:** F.Sc Pre-engineering / A-levels from any recognized board or an equivalent certification with at least **50% marks**, OR a Diploma in the same field securing at least **60% marks**.
- **Testing & Selection:** Admissions are determined via a combined evaluation of an NTS test, a departmental aptitude test (which examines creative thinking, writing skills, and freehand drawing performance), and a subsequent interview.

Degree Requirements

- **Total Credit Hours:** 173
- **Total Courses:** 54
- **Minimum Academic Standing:** CGPA $\geq$ 2.0
- **Core Graduate Capabilities:** Designing systems under economic, environmental, social, ethical, safety, and sustainability constraints; working on multidisciplinary teams; communicating architectural solutions globally; and applying math, science, and spatial art tools.
